User guidance for trading flow.

What is a CD certificate?

Certificate of Deposit, when a user submits a vehicle for scrapping at an RVSF, the RVSF operator gives the user a CD in exchange for the vehicle being scrapped. This CD is generated digitally at V-Scrap portal.

How DigiELV helps you to sell a CD?

DigiELV makes selling your CD (Certificate of Deposit) easy and secure with following steps:

1. **Register on DigiELV**
2. **List your CD certificate for sell**
3. **Reach Buyers:** Your CD becomes visible to a wide network of potential buyers.
4. **Track & Trade Digitally:** Monitor interest and complete the sale through a secure, GST-compliant process.

Selling a CD on DigiELV is fast, transparent, and completely digital.

Login to Vscrap portal

In the View market offers, there are CD categories like vehicle types. It is essential to select the category that aligns with your intended purchase

Initiate the trade from V-scrap

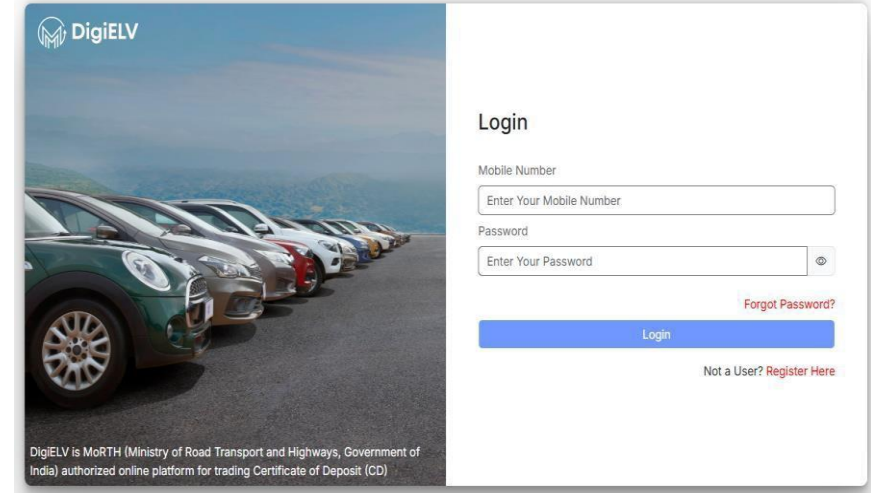

Check the vehicle scrapped and related certificate of deposit. Initiate the trade by clicking on "Trade" button.

Getting started with

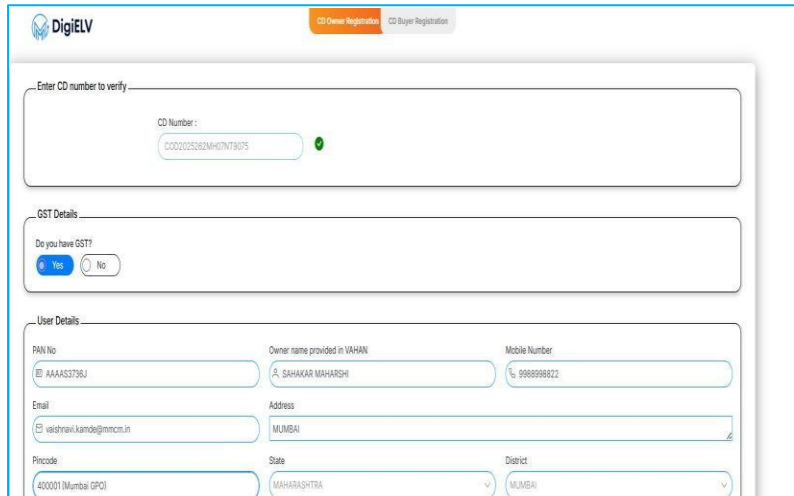

To sell CD on the DigiELV platform, users need to click the "Login/Register" button on the homepage.

The image shows a mobile application screen for KYC verification. At the top, there is a 'KYC' icon and the title 'KYC Verification'. Below the title, a message says 'Please verify your details to proceed with KYC Verification.' The form contains four input fields: 'FULL NAME' (DEEPIKA DILIP BACH), 'MOBILE NUMBER' (9104948864), 'EMAIL ADDRESS' (deepika.dilip@gmail.com), and 'PAN NUMBER' (CPCN7878L). Below these fields is a consent statement with a red checkmark icon, stating that the user provides consent for KYC verification on their registered mobile number and confirms that the vehicle number is owned by them. It also mentions that the user consents to share their Aadhaar document through DigiLocker for KYC verification and understands that selection of Aadhaar is mandatory for successful verification. Failure to select Aadhaar may result in rejection of the verification request. During KYC, the OTP will be sent to the mobile number linked with their Aadhaar. Ensure the same Aadhaar is linked with the PAN registered in Vahan records. At the bottom, there are two buttons: 'Cancel' (red) and 'Continue' (blue).

The system will prompt the user to complete the KYC process. An email and WhatsApp message containing the KYC verification link will be sent to the user's registered email address and mobile number. Upon clicking the link, the KYC process will begin.

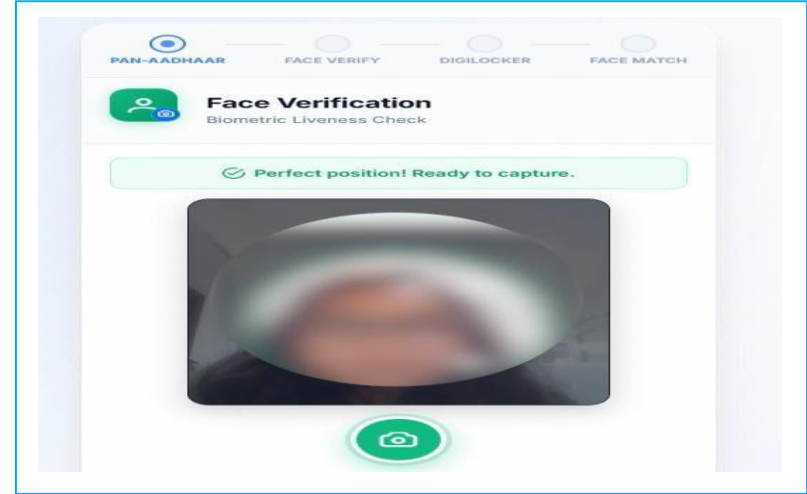

The image shows a confirmation message screen. At the top, there is a green checkmark icon. Below it, the text reads 'Verification link sent successfully.' followed by 'The KYC link has been shared to your registered email ID.' and 'You may also continue the KYC verification process by clicking the "Continue" button.' At the bottom, there is a blue button labeled 'Continue'.

The system will display a pop-up message with a "Continue" button. On clicking the "Continue" button, the KYC process will be initiated.

The screenshot shows the 'Identity Verification' screen. At the top, there are four tabs: 'PAN-AADHAAR' (selected), 'FACE VERIFY', 'DIGILOCKER', and 'FACE MATCH'. Below the tabs, the title 'Identity Verification' is displayed with the subtitle 'Secure Identification Digital Linkage'. There are two input fields: 'PAN NUMBER (VERIFIED)' and 'AADHAAR NUMBER'. The 'AADHAAR NUMBER' field has a toggle icon to its right. Below the input fields, there is a consent checkbox with the text: 'I hereby provide my explicit consent to fetch and verify my PAN and Aadhaar details solely for identity verification, secure KYC validation, and automated transaction processing.' The checkbox is checked. At the bottom, there is a blue button labeled 'Verify & Proceed' with a right-pointing arrow icon.
